HYGIENIC CERTIFICATE

B.BK.60111.0388.2022
ORIGINAL

NATIONAL INSTITUTE OF PUBLIC HEALTH, NIH - NATIONAL RESEARCH INSTITUTE

Product: SWISS KRONO worktop with thickness of: 28 mm and 38 mm

Containing: wood chips, cellulose, urea-formaldehyde resin, HPL veneer laminate and other ingredients according to the manufacturer's documentation

Intended: for the production of furniture, equipment and interior design

The above-named product meets the hygienic requirements subject to the following conditions:

The hygienic certificate does not include the assessment of the product in terms of direct contact with food or agri-food and pharmaceutical products. Furniture containing the product is subject to a separate certification procedure. The use of the product must comply with the manufacturer's recommendations and the applicable regulations for the facility in which it is to be used. The product should be seasoned until the characteristic odour disappears and should be suitable for use only after this period. Filling with the product cannot exceed 0.8s sqm per cbm of volume of category A rooms and 1.6 sqm per cbm of volume of category B rooms (M.P. 1996 No. 19 item 231 Regulation of the Minister of Health and Social Welfare of 12 March 1996). The hygienic certificate does not apply to technical parameters, functional values and assessment of the product's allergenic properties.
